Title: Logistics Buys Cargill Property

Date: Week of September, 27<sup>th</sup>, 2004

Info: The Cargill company has reached an agreement with the city of La Crosse to sell its downtown grain elevator. The sale will allow the demolition of the Cargill facility to make room for the Logistics Health Corporate Center. The current facility will continue to operate until July of next year. The sale price of six and a half million dollars is less than the mayor anticipated. Cargill will move its grain elevator operation to French Island. Still to be negotiated is the sale of Piggy's Restaurant property to the city. Piggy's will move its operations to another, as the disclosed location.

Title: City Brewery Site

Date: Week of September 13<sup>th</sup>, 2004

Info: Traditionally, the festgrounds at Oktoberfest have just been the north and southside grounds. But this year, the City Brewery will be added as an Oktoberfest site. Brewmaster Randy Hughes says there won't be many drastic changes compared to their annual City Fest, which they have held in the past few years during Oktoberfest. It's a compromise between the local business and Oktoberfest officials, since City Fest was taking business away from Oktoberfest. This year, the brewery location offers four of their local beers. In the meantime, the northside and southside festgrounds will offer two of the City Brewery beers, plus the Miller and Budwieser brands. The Brewery site will only operate the first weekend of Oktoberfest.

Title: Jefferson Bus Lines

Date: Week of August 16<sup>th</sup>, 2004

Info: Jefferson Bus Lines will offer roundtrip service between Madison and Minneapolis, going through cities like La Crosse and Winona. This comes after Greyhound Bus Lines announced it was cancelling its service through the two cities. Greyhound said it would cut service to 260 stops – 43 of them in Wisconsin, including La Crosse. Jefferson Lines actually closed its operations in La Crosse just nine months ago, because they didn't have the passenger load they hoped for. But now, with Greyhound closing stops, they will reopen their stops in La Crosse. Buses will go through Coon Valley, Westby, and Viroqua daily.

Title: New Franciscan Skemp Building

Date: Week of August 23<sup>rd</sup>, 2004

Info: Franciscan Skemp Healthcare is combining its Onalaska and West Salem clinics into one new larger facility. It will stand at the corner of County Highway OS and Theater Road in Onalaska. Once complete, the current Onalaska and West Salem Franciscan Clinics will close. Both staffs will then transfer to the new site. The new clinic will include primary care services, along with a physical therapy department and pharmacy. Construction will begin next spring. The 11-million dollar project is expected to be complete in early 2006.

## **FCC 2: GOVERNMENT AND POLITICS**

Title: Ralph Nader Visits La Crosse

Date: Week of September 13<sup>th</sup>, 2004

Info: No third party candidate has ever won a presidential election, but Ralph Nader says that doesn't mean his party doesn't make a difference. That's what the longtime consumer advocate said, when he campaigned at UW-La Crosse. Nader says although Democrats and Republicans are supposed to be on opposite sides of the issues, they're becoming the same. Both are competing for corporate dollars. Nader says having an independent candidate on the ballot gives voters a real choice. He says third parties have pushed to make changes throughout history, including giving women the right to vote, adding social security, and the graduated income tax.

Title: Assault Weapons Ban Expires

Date: Week of September 6<sup>th</sup>, 2004

Info: The debate over the expiration of the assault weapons ban is heating up nationally and locally. Supporters say the ban has made people safer, while opponents say the drop in gun deaths is due to other factors. Back in 1994, President Clinton signed the 10 year ban which outlaws 19 types of semi-automatic weapons. But it had a sunset clause, expiring now unless Congress renews the ban. Onalaska Police Chief Randy Williams wants the ban reinstated. He believes the weapons defined in the law have no place in our society. However, local gunsmith Jeff Adamson sees it differently. He says many of the guns under the ban are similar to those already being sold legally. Adamson calls the weapons a feel good law. President Bush said he would sign the bill if it crossed his desk, but would not push Congress to pass it.

Title: Ron Kind Announces Reelection Campaign

Date: Week of August 16<sup>th</sup>, 2004

Info: Ron Kind announced his bid for reelection in the 3<sup>rd</sup> Congressional District. Kind made the announcement in front of supporters on Western Wisconsin Technical College Campus this afternoon. Kind says the U.S. needs to build better relations with other countries, if we are going to win the war on terror. And that's something that isn't being done right now. Ron Kind faces Republican challenger Dale Schultz. Schultz currently represents the 17<sup>th</sup> state senate district in southwestern Wisconsin.

Title: Vice President Visits La Crosse

Date: Week of August 2<sup>nd</sup>, 2004

Info: Vice President Dick Cheney delivered a campaign speech in front of about 500 employees at Walzcraft Industries in La Crosse. The event was closed to the public and lasted about 20 minutes. Cheney was very direct with his message. He focused on the good he says the Bush administration has done and continues to do for the nation's economy. And he said the President's tax cuts have a lot to do with that. The Vice President spent little time attacking Democrat John Kerry. Cheney's wife Lynne was also attended the speech.

### **FCC 3: ENVIRONMENT**

Title: RDF Plant

Date: Week of September 13<sup>th</sup>, 2004

Info: Most people take their garbage out to the curb or dumpster and forget about it. But some of that trash is actually producing energy. The Xcel Energy RDF plant held an open house to let people find out how their garbage is used. The plant uses the waste to generate about 20 percent of the electricity used in the La Crosse area. The system separates out what can burn and what cannot. RDF stands for Refuse Derived Fuel Plant. The plant takes in several hundred tons of garbage each day.

Title: Endangered Species List

Date: Week of September 27<sup>th</sup>, 2004

Info: Should the gray wolf be on the endangered species list? That's a question the Wisconsin Department of Natural Resources is asking at public hearing around the state. The DNR estimates the wolf population in Wisconsin is about 400 animals in 108 packs. That's about 50 more than the DNR's target population. The DNR says wolves have killed about 21 livestock on farms this year, compared with 14 in all of last year. The US Fish and Wildlife Service has proposed taking the gray wolf off the list in Wisconsin, Minnesota, Michigan, and the northeast. The gray wolf species was near extinction in the 1970s.

Title: Global Warming

Date: Week of July 19<sup>th</sup>, 2004

Info: Rising temperatures, eroding shorelines, and struggling wetlands are just some of the effects of global warming. They're also the basis for a multi-state lawsuit against five US power companies. The lawsuit is the first of its kind. It asks a federal judge to order the companies to reduce emissions of carbon dioxide. 8 states, including Wisconsin, and the city of New York, accuse the utilities of polluting the environment by generating 10 percent of the nation's carbon dioxide. Several of the energy companies argue they have made voluntary steps to cut back emissions.

Title: Thunderstorm in La Crosse

Date: Week of August 19<sup>th</sup>, 2004

Info: Employees at Franciscan Skemp Hospital spent several hours drying out after a severe storm passed through the La Crosse area. Dozens of dryers covered the lobby floors of Franciscan Skemp's clinic after rain rushed in Monday afternoon. After announcing a code gray, which means severe weather is coming, the hospital had to reroute incoming patients. Luckily there was no major damage at the hospital. The main concern, getting the humidity out of the building. Getting out the moisture will prevent the potential for fungus to grow in the hospital.

# **Environment PSA's/Events**

## **FCC 4: EDUCATION**

Title: La Crosse Referendum

Date: Week of September 6<sup>th</sup>, 2004

Info: In September, voters in the La Crosse school district will decide whether or not they can spend an additional \$3.5 million dollars a year for the next five years. That's to fund operating costs in the district for that five year period. Supporters of the referendum made their case to education, business, and political leaders of the community. The La Crosse Area Development Corporation hosted the forum. Supporters say if the voters reject the referendum, the district will have to make more cuts which will hurt both teachers and students. Programs, classes, and teaching position would need to be cut if there is not extra funding. Voters face a second question in November. That would deal with the approval or disapproval of a plan that would close five schools and replace them with two new larger schools.

Title: Anti-referendum group

Date: Week of September 27<sup>th</sup>, 2004

Info: A local group says the approval of the second part of a school district referendum in La Crosse would be a mistake. The group called Save Our Neighborhood Schools says closing five elementary school, and building two new ones in their place is not the right move for the city of La Crosse. They held their first organized meeting at Roosevelt Elementary, one of the five elementary schools that would close under the referendum if it passes. The project would cost \$38 million, and SOS believes this plan is too expensive, and are against the idea of closing neighborhood schools. The La Crosse School District says the building improvements and consolidation projects are necessary to improve the quality learning environment that students have today.

Title: Hillsboro Students Return

Date: Week of August 30<sup>th</sup>, 2004

Info: Just two months ago, Hillsboro high school was a disaster. That's because vandals did around \$150,000 dollars worth of damage to the school. They smashed computers, broke windows, and destroyed clocks. But now, as students returned for the new school year, they say they are proud to be a part of Hillsboro High School after all that happened. They also have a stronger appreciation after all that happened. The custodial staff worked around the clock to make the school look the way it did at the end of the last school year.

Title: UW- L Ranks High

Date: Week of August 23<sup>rd</sup>, 2004

Info: For the second straight year, UW-La Crosse has made US News and World Report Magazine's list of Best Colleges and Universities. UW-L ranks third among public universities offering masters degrees. UW-L tied with UW-Eau Claire for third place. The magazine looks at 7 categories when determining their list, including class size, cost, and graduation rate. UW-L has a graduation rate of 68%, well above the national average of 50%.

## **FCC 5: PUBLIC HEALTH**

Title: Smoking & Diseases

Date: Week of September 20<sup>th</sup>, 2004

Info: Smoking and other tobacco use is the most preventable cause of death in our society. The Centers of Disease Control reports that each year 20% of all deaths in this country are caused by smoking. In addition to heart attacks and lung disease, smokers are at a greater risk for peripheral vascular disease. That's a disease that causes a loss of circulation to your limbs. Just like heart disease, there's a narrowing of the blood vessels – but it happens in places like your arms, toes, and fingers. More than 3 million Americans quit smoking every single year.

Title: Kidney Dialysis Building

Date: Week of August 16<sup>th</sup>, 2004

Info: In the early stages of chronic kidney disease, patients don't need dialysis. But when kidneys fail, a transplant or dialysis is the only way to keep the patient alive. Over the next ten years, medical experts estimate that the number of patients needing renal dialysis will increase by ten percent. That's why Gundersen Lutheran is planning to build a new renal dialysis building on their Onalaska campus. The building will allow 30 patients to be treated at one time, combining convenience and comfort. The new building is set to open in early 2005.

Title: Reducing Alcohol Abuse

Date: Week of July 12<sup>th</sup>, 2004

Info: Most college presidents agree binge drinking is the most serious problem on college campuses. Retired UW-La Crosse professor Andy Ziemelis has spent eight years of his life looking at more than 450 colleges for ways to prevent substance abuse. He now thinks he has some answers. Although there is no perfect drug prevention program, there are some key characteristics that successful programs share. One of those is encouraging teachers to include facts about the reality of alcohol in normal course studies. Giving students a feeling of empowerment is also important, whether it's through alcohol awareness or volunteer work. UW-L is already using a few of Ziemelis's ideas.

Title: Alcohol Awareness Taskforce

Date: Week of July 1<sup>st</sup>, 2004

Info: The taskforce formed in response to the recent river drownings in La Crosse says it has a tough road ahead. Over the next three months, the team will work together to come up with solutions to change attitudes towards drinking. Team members say they'd like one of their focal points to be reducing environmental risks, like the density of bars in town and availability of cheap drink specials that encourage people to drink excessively. They will also address cultural issues.

## FCC 6: RECREATION

Title: Camping Season

Date: Week of September 6<sup>th</sup>, 2004

Info: More campers are on the road, as many head home from their Labor Day weekend getaways. At Neshonic Lakeside Campground in West Salem, all 233 sites were booked over the holiday weekend. But because of rain and cooler temperatures, many of the campers headed home early. Mother Nature was in a strange mood this summer – cool and wet – but surprisingly, it hasn't hurt the camping business. Weather permitting, many area campgrounds hope to stay open until the middle of October.

Title: Applefest Begins

Date: Week of September 13<sup>th</sup>, 2004

Info: The annual Applefest festival kicked off in La Crescent this week. The four day festival includes live music every night and carnival rides for the kids all weekend long. This celebration marks the 56<sup>th</sup> year of the festival. And it's an event that Applefest President Chad Ready means a great deal to the community of La Crescent. In addition to the rides and apples, the Budweiser Clydesdales are at Applefest this year, and will be in the King Apple Parade on Sunday.

Title: Oktoberfest Parade

Date: Week of September 20<sup>th</sup>, 2004

Info: La Crosse's annual Oktoberfest celebration kicked off with the Maple Leaf Parade. Thousands of people lined the streets of La Crosse to grab a glimpse of the annual tradition. Nearly 200 different organizations, from bands to floats, entered into the Maple Leaf Parade this year. Kids had the opportunity to gather all the candy they could. Oktoberfest runs two weekends once again this year. However, after this year's Oktoberfest celebrations, board members will discuss the possibility of reducing the festival down to its original one weekend once again.

Title: High School Rodeo

Date: Week of August 30<sup>th</sup>, 2004

Info: From bareback bronco riding to steer wrestling and calf roping, hundreds of rodeo fans watched in awe as the Western Wisconsin High School Rodeo wrapped up another year in Holmen. More than 150 competitors from high schools across Wisconsin, Minnesota, and Iowa competed in the two day event. Most of the riders say they've always dreamed of riding in the rodeos, and practicing in competitions is a great way to get to the pros someday. Winners from the regional rodeo now advance to the state competition later this fall.
